THE LINE OF THE LIGHT

It was an "unplanned" step in the design process. The designer, who had been working on a series of lamps, decided to create a lamp that was both functional and artistic. The result was a lamp that was both functional and artistic. The result was a lamp that was both functional and artistic. The result was a lamp that was both functional and artistic.

Light is essential to human life. It is the source of energy and the source of life. Light is essential to human life. It is the source of energy and the source of life. Light is essential to human life. It is the source of energy and the source of life.
